

American Textile

Project Summary

Pillow manufacturer American Textile Company is expanding their RIDC Park headquarters in Duquesne. The company is building an 83,000-square-foot plant adjacent to its current operations center to expand its manufacturing line. American Textile's expansion will result in the creation of 40 production jobs and 10 administrative/ managerial positions. ACED provided \$530,000 in financing assistance for the project including site development and job training, while the Governor's Action Team contributed \$3.2million. This financing will allow American Textile Company to manufacture a new pillow line. American Textile Company is anticipating purchasing additional racking systems for inventory and 3 garnet machines to produce this new pillow line.
